

POWERS WORRY ABOUT MEXICO

Pressure for Definite United States Policy Felt

ENVOYS SEE SECRETARY LANSING

England and Russia Make Guarded Inquiries

Washington, D. C., Jan. 21.—Pressure is beginning to come from abroad for a more definite policy on the part of the United States for the protection of foreigners in Mexico. Although no direct demands for action are being made, the representatives here of foreign powers are almost daily inquiring at the state department as to the administration's plans.

Sir Cecil Spring-Rice, the British ambassador, who has been particularly inquisitive in this respect, had another long conference yesterday with Secretary Lansing, but although it was admitted that Mexico was discussed, neither the state department nor the ambassador would disclose details of the conference.

Ambassador Bakmetieff of Russia saw the secretary Wednesday in reference to the arrest of a Russian citizen by Carranza authorities in Mexico City. As a result of representations the man has been released, but while talking with the secretary the ambassador inquired generally about the Mexican situation.

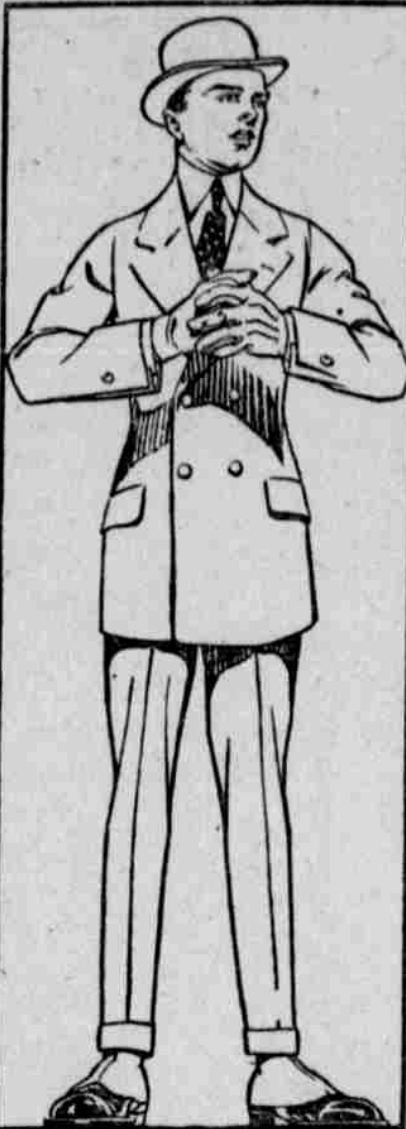

On behalf of Holmes, the only survivor of the Santa Ysabel massacre, Collector Cobb, at El Paso, wired to the state department yesterday denying statements accredited to Holmes that the latter knew of no passports issued to the American miners. On the contrary, Holmes asked that Cobb send the following statement to the department:

"Watson did have a passport for the entire party going to Cusi in which my name was included, although I am not of the Cusi company. I am an independent operator in the same district." Gen. Funston's official report to the war department on the clash near Douglas, Ariz., said:

"Mexican bandits, estimated six men, robbed houses at Conavell's mine, one and one-half miles from Doyle's Wells, afternoon of the 18th. Three from the detachment at Doyle's Wells and Arthur Lee, mining man, followed the bandits' trail south toward Lone Cabin. About two miles from Lone Cabin they dismounted to reconnoitre near a campfire. They were fired on, one horse being killed."

"Lieut. King left here at 1:30 a. m. with a detachment of thirty men. Lieut. Nicholson with a detachment of automobiles reconnoitred in the vicinity of Lone Cabin and found the bandits' tracks going southwest to Mexico."

Gen. Funston also reported the accidental shooting of Private Cabel B. Hall

Glass of Hot Water Before Breakfast a Splendid Habit

Open sluices of the system each morning and wash away the poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast and it is said to be but a little while until the roses begin to appear in the cheeks. A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to make anyone who is bothered with biliousness, constipation, stomachic trouble or rheumatism a real enthusiast on the subject of internal sanitation. Try it and you are assured that you will look better and feel better in every way shortly.—Adv.

SWEDEN HITS AT BRITAIN

Puts Embargo on Exportation of Wood Pulp

BLOCKADE IN COMMONS

Grey Announces a Full Debate of the Question Next Week

London, Jan. 21.—Sweden has published a decree, which goes into effect to-day prohibiting the exportation of wood pulp. This action is considered here as an act of reprisal against Great Britain for the seizure from steamships of parcel post packages destined for Sweden.

Announcement of the government's policy toward the proposal that a blockade be established about the entire German coast probably will be made next week.

Answering a query in the House of Commons yesterday afternoon, Sir Edward Grey, British foreign secretary, declared that the whole situation with regard to American trade statistics and the foreign office's policy would be discussed in Parliament next week. This was taken to mean that the ministry will lay its program before the House of Commons.

The foreign secretary gave no intimation as to how far Great Britain is prepared to go to prevent shipments from reaching Germany. He did complain, however, that London newspaper articles, purporting to show that the present "blockade" is a farce and does not stop shipments to Germany, are "grossly unfair."

"I must say," was Sir Edward's remark to the Commons, "that the statements recently printed thereon were not only grossly unfair but entirely misrepresented the facts."

The foreign secretary's criticism, it was generally understood, was directed at an article culled to London by an English correspondent stationed at Washington. This article contrasted American shipments to neutrals bordering Germany since the laying of the

British blockade with shipments previous to the war.

The conclusion drawn by the London press was that the goods formerly sent to Germany direct from the United States are now being shipped via Holland and Scandinavian ports, and that the so-called British blockade is entirely ineffective.

The promptness with which the government discredited this article was taken in some quarters as an indication that no drastic step is contemplated by the cabinet. It was accepted in some quarters as an indication that if the government decides upon a blockade policy important concessions will be made to neutrals to avoid arousing feelings of hostility, particularly in the United States.

Reports were circulated here after the departure of French Premier Aristide Briand and his colleagues, who attended the war council of the allies, that France has not yet agreed to the British plan for substituting an actual blockade for the present orders in council.

It is said that the French officials have withheld their full endorsement because of a fear that a blockade would have a deleterious effect upon the commerce of the United States, and arouse American resentment.

SAGE TEA PUTS LIFE AND COLOR IN HAIR

Don't Stay Gray! It Darkens So Naturally That Nobody Can Tell

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50-cent bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old, famous sage tea recipe are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray, becoming faded, dry, scraggly and thin, have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful—all dandruff goes, scalp itching and falling hair stops.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.—Adv.

To Cure a Cold in One Day take LAXATIVE BROMO QUININE Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.—Adv.

WILSON HEARS SOUTH WANTS TAFT FOR JUDGE

Many Democrats Would Give Him Lamar's Place on Supreme Court Bench.

Washington, Jan. 21.—The strongest kind of pressure from Democratic sources is being brought to bear on President Wilson to nominate ex-President Taft to the vacancy in the supreme court of the United States caused by the death of Associate Justice Lamar. What has been particularly surprising to the president is the fact that much of this pressure has come from southern Democrats. Yesterday, for example, J. C. Milford of Honesdale, S. C., one of the leading Democrats of the state, told the president that from expressions he had heard on business trips through both the Carolinas and Georgia there was an overwhelming sentiment in favor of the selection of the former Republican president.

The president is said to have displayed more than ordinary interest in the statements of the South Carolinian and to have expressed a desire to hear more about the Taft sentiment in the South.

SHOW STRENGTH. SAYS DANIELS

"If Nations Know We're Prepared to Build Most Dreadnoughts' Voice Will Be Strong," He Declares.

Washington, Jan. 21.—Backed by its great wealth and resources, and with an established naval building programme, the United States will be in a position at the close of the European war to call an international conference for limitation of armament, Secretary Daniels declared yesterday before the House naval committee.

"If these nations know that we are rich enough and big enough and prepared to build more dreadnoughts than anybody else, it will give us a stronger voice," he said.

"I agree with you there," said Representative Butler, whose question had brought out the secretary's statement, "but as to one point, I would wait until then, and, if they refused our suggestion and kept on building, I would borrow hundreds of millions of dollars and building 24 ships in four years."

"Where would you build them?" asked Secretary Daniels.

"I would devote every facility in the country to it," said Representative Butler.

Pressing the secretary for any specific

reason for increasing the navy immediately, Representative Butler asked if he had any knowledge of impending danger he had not revealed.

"We cannot be indifferent to the present world madness for war," the secretary said. "I do not believe the European powers are building to attack us, but it is possible. If we wait, it takes three years to build a battleship and they are building now."

E-BOAT WRECKED ON COAST.

Crew of Stranded British Submarine Is Taken Off.

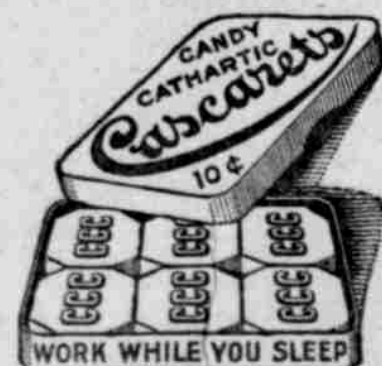

London, Jan. 21.—A British submarine has gone aground on the Dutch coast, the admiralty announced yesterday afternoon.

A British destroyer rescued part of the crew and the others were taken off by a Dutch warship and conveyed to Holland.

IT'S YOUR LIVER! YOU'RE BILIOUS, HEADACHY, SICK!

Don't Stay Constipated with Breath Bad, Stomach Sour or a Cold

Enjoy Life! Live Your Liver and Bowels To-night and Feel Fine

To-night sure! Remove the liver and bowel poison which is keeping your head dizzy, your tongue coated, breath offensive and stomach sour. Don't stay bilious, sick, headachy, constipated and full of cold. Why don't you get a box of Cascares from the drug store now? Eat one or two to-night and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced. You will wake up feeling fit and fine. Cascares never gripe or bother you all the next day like calomel, salts and pills. They act gently but thoroughly. Mothers should give cross, sick, bilious or feverish children a whole Cascares any time. They are harmless and children love them.—Adv.
